

Unsalted Bulk Butter

Production Definition:

Unsalted Butter is churned exclusively from sweet cream. Lactic acid and starter distillate are added to give the product the aroma and flavor of cultured butter. No salt or additional coloring material is used. All standards, specifications, and requirements for U.S. Grade AA Butter will be met or exceeded. Product is manufactured in accordance with good manufacturing practices in a plant which has been surveyed and approved for inspection or grading service by the United States Department of Agriculture.
